Hi Steve,

I'm glad we are able to help you with your emergency preparedness. Our dispatch operations is actually through the State Police dispatch center in Montrose. They do all the dispatching for San Juan County including sheriff, fire, EMS and SAR. DOT is currently being dispatched out of Alamosa dispatch center, but I hear a rumor it may go back to Montrose.

The best way to activate an emergency response anywhere in SJC is to call 911. SJC does not have a dispatcher on duty at this time. But each agency does have access to the paging system should it be necessary.

Let me know if I can be of further assistance. I wish you good luck with your project.

Hello Kimmet,

Thank you for the follow up and LZ coordinates. We assume that any need for such support will be initiated by your SJC dispatch is that correct ?

Again, thank you - sincerely,

Steve

Mr. Way and Mr. Maisel,

Thanks for contacting us regarding the LZ nearest the area you are working in. You are correct in that Gladstone is a predetermined LZ for our medical helicopters. The exact coordinates are: N 37 ° 53.347' W 107° 38.935' Elevation: 10,570 feet.

I hope this answers your question. Let me know if you need anything further. Good luck on your project.

Pete,

If you/San Juan Cnty FD have an established LZ with Flight For Life we'd like to know that and where it is. We were looking at the area near the site (our laydown area where we were discussing pipe alignments) and wondering if that would work, but I assume the Gladstone could be one if needed.

Thanks and let me know.

Steve
